Remarks

Applicant filed an Amendment on January 2, 2007, and is awaiting response.

Applicant files this Supplemental Amendment to address an editing informality introduced by the PTO Electronic Stylesheet v. 1.1.1, which was mandated by the Office for electronic filing at that time. Significantly, the present Amendment replaces the PTO Electronic Stylesheet claim heading of "Claims" with "What is claimed is:", thereby improving readability of the claims (e.g., as complete sentences).

If for any reason the Examiner feels that a telephone conference would in any way expedite prosecution of the subject application, the Examiner is invited to telephone the undersigned at 408 884 1507.

Respectfully submitted,

Date:
